OpenAthens

OpenAthens is an authentication system that provides off campus access to the library’s online resources via single sign-on.

To using the subscribed electronic resources outside of school, the login method is as follows:

1. Log in by the library electronic database list page.
2. Log in by using the institutional authentication method provided by the database vendors.

Library electronic database list page

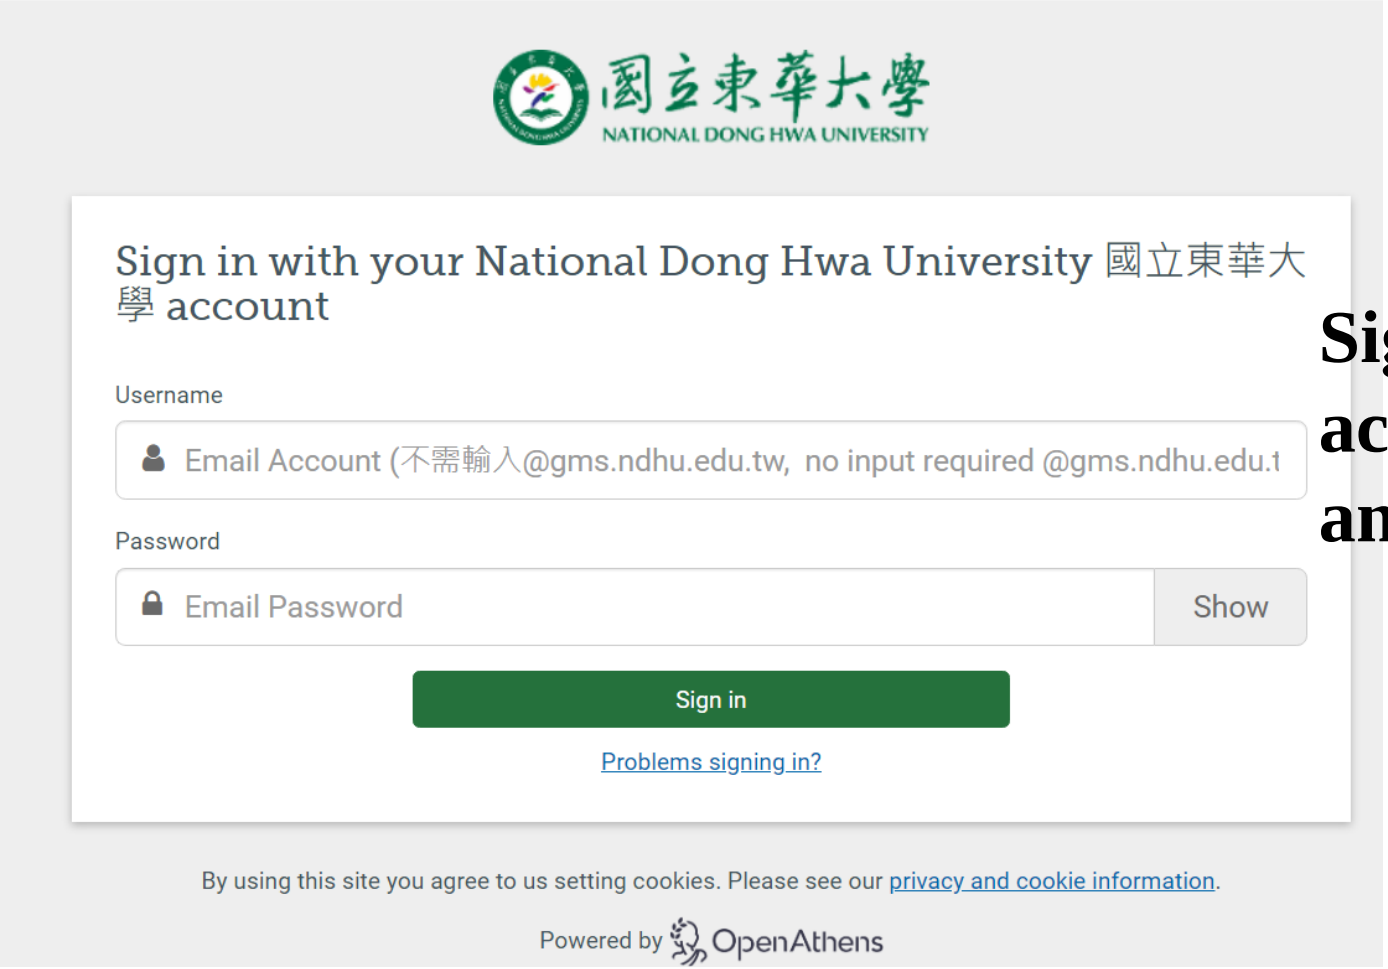

1. Click "Link", than system will judge the connection IP is on-campus or off-campus automatically .

2. If off-campus, it will show the NDHU OpenAthens signin page on screen.

3. Signin with your NDHU email account (exclude @gms.ndhu.edu.tw) and email password.

NDHU OpenAthens signin page

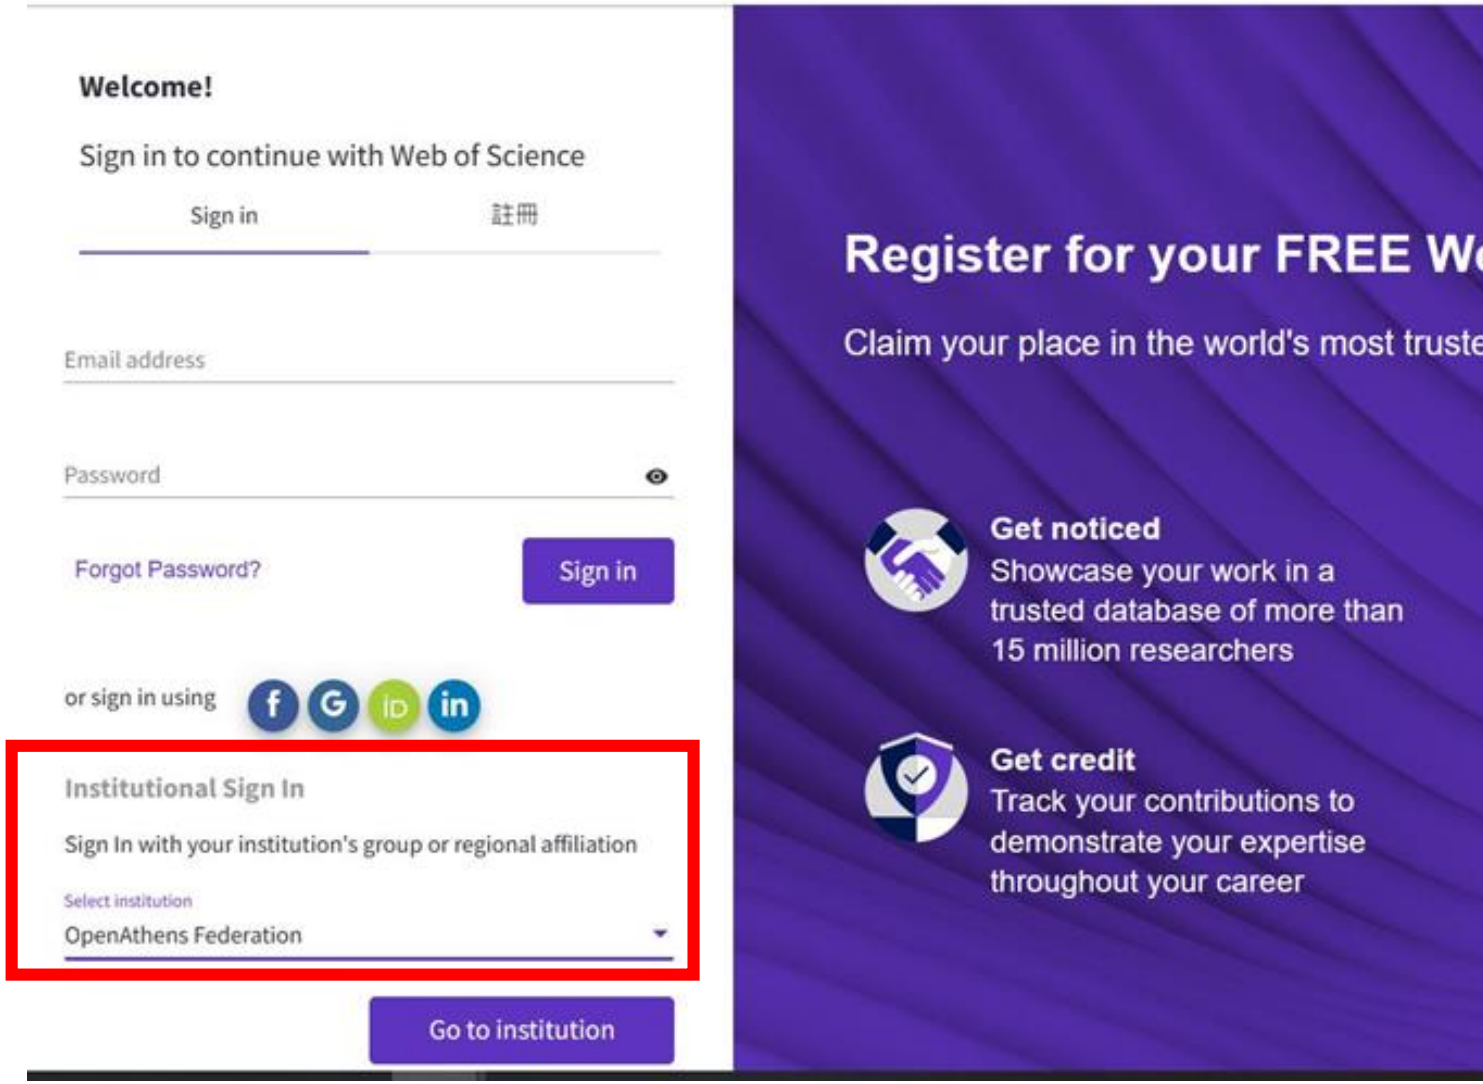

Sign in with your NDHU email account (exclude @gms.ndhu.edu.tw) and email password.

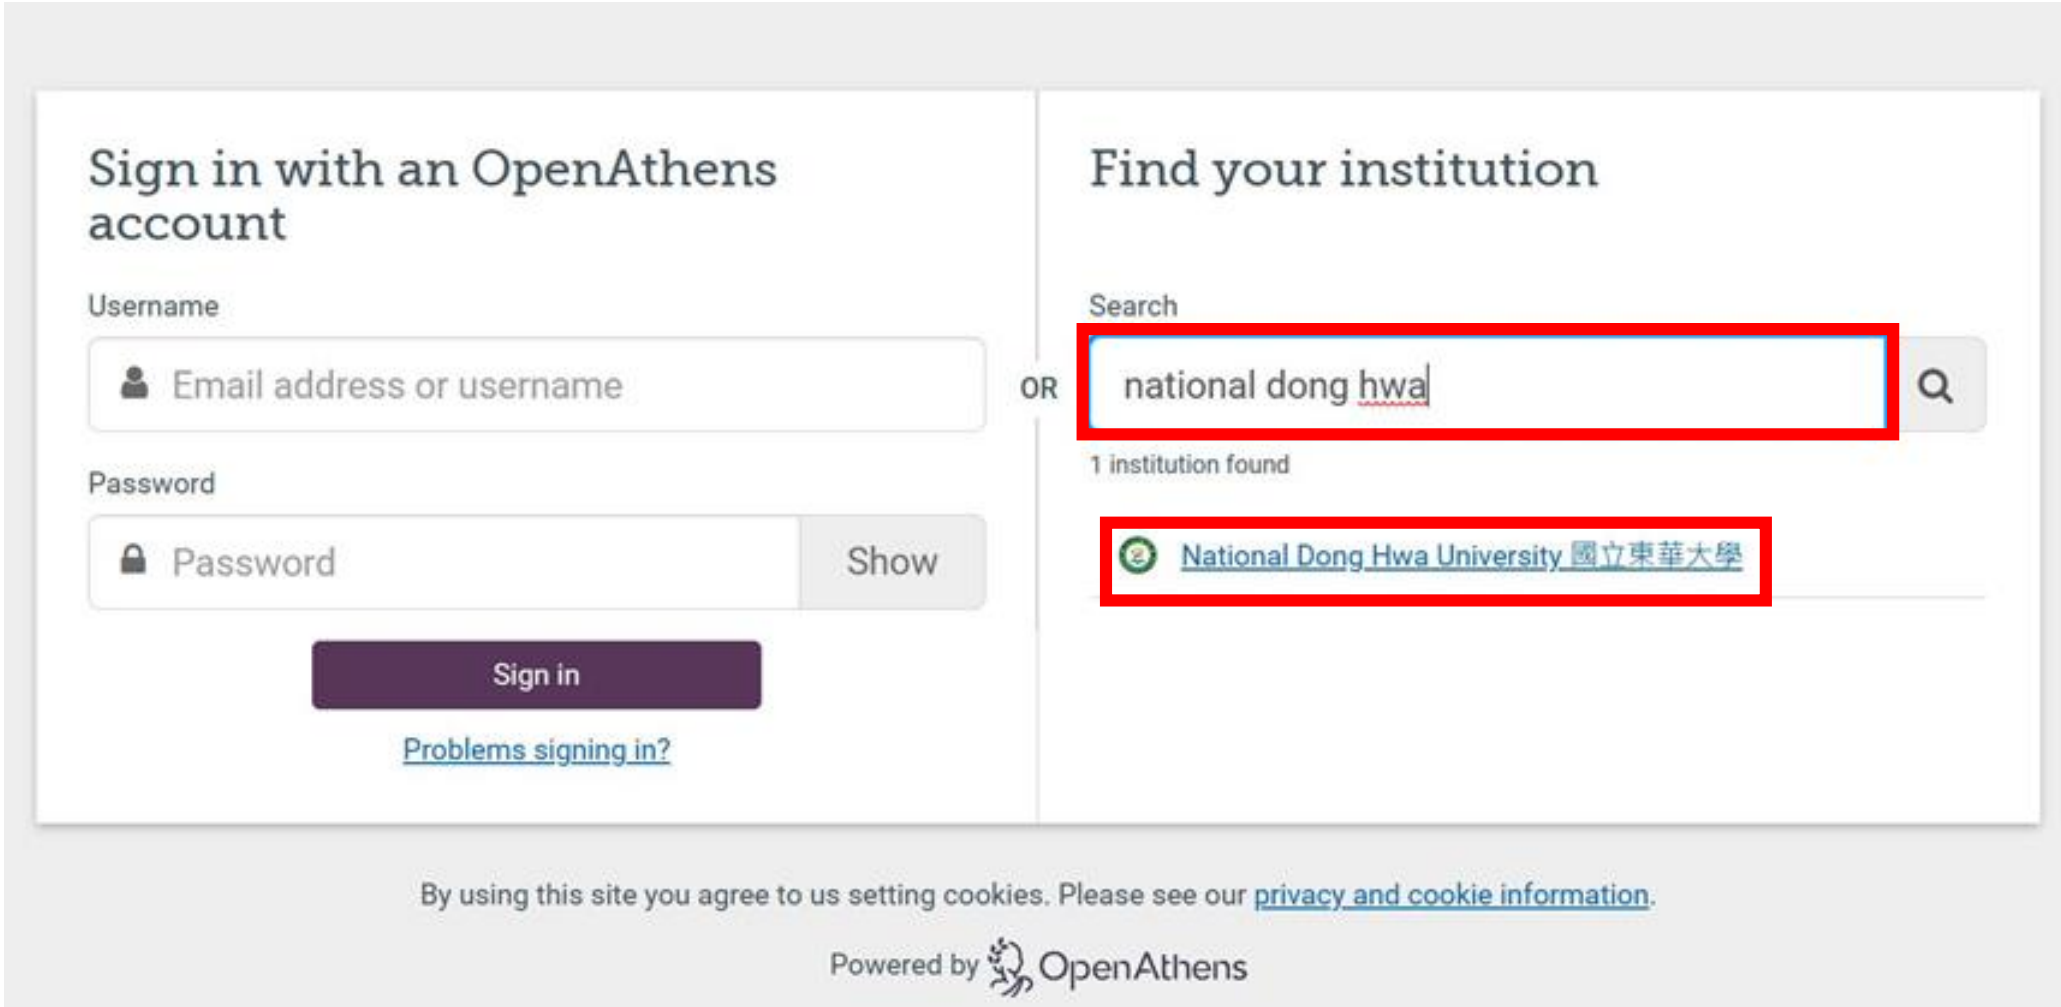

Log in by using the institutional authentication method provided by the database vendors.
